**Vote: U**

*Explanation: The Town's contribution to the total cost of funding public education from Kindergarten to grade 12 as described in the Essential Programs and Services Funding Act is the amount of money determined by state law to be the minimum amount that a municipality must raise in order to receive the full amount of state dollars.*

### **ARTICLE III. KEEPING OF DOMESTICATED FOWL**

#### **Purpose.**

The purpose of this article is to provide standards for the keeping of domesticated fowl in the IR-1, IR-2 and I-B zones as a conditional use. It is intended to enable residents to keep a small number of fowl on a noncommercial basis while creating standards and requirements that ensure that domesticated fowl do not adversely impact the neighborhood surrounding the property on which the fowl are kept.

#### **Sec. 5-21 Number and type of fowl allowed.**

- (a) The maximum number of fowl allowed is twenty (24) per lot regardless of how many dwelling units are on the lot.
- (b) Fowl allowed include chickens, turkeys, ducks and others may be kept as well.

#### **Sec. 5-22 Non-commercial use only.**

- (a) Fowl shall be kept as pets and for personal use only; eggs can be sold to off set cost but no person shall engage in fowl breeding or fertilizer production for commercial purposes.

#### **Sec. 5-23 Enclosures.**

- (a) Fowl should remain on the permittees property and not be a nuisance to abutting property owners. Fowl must have access to an enclosure or fenced area (fowl pen) for protection from predators, roosting and egg laying. Enclosures must be clean, dry, and odor-free, kept in a neat and sanitary condition, at all times, in a manner that will not disturb the use or enjoyment of neighboring lots due to noise, odor or other adverse impact.
- (b) Fowl shall be secured within a fowl house during non-daylight hours.
  - (1) Any type of fowl house shall be at least twenty-five (25) feet from any residential structure or any other premises on any adjacent lots. The structure shall be enclosed on all sides and shall have a roof and doors. Access doors must be able to be shut and latched at night. The fowl house must be well maintained.

- (2) Fowl houses shall meet zoning setbacks applicable to detached accessory structures (sheds). For property where no rear yard exists, a side yard may be used as long as the setbacks for structures generally applicable in the zoning district are met. In no case may a fowl house be placed in the front yard. Fowl houses are not allowed to be located in any part of a home.

**Sec. 5-24 Odor and noise impacts.**

- (a) Odors from fowl, fowl manure, or other fowl related substances, shall not be perceptible at the property boundaries.
- (b) Perceptible noise from fowl shall not be loud enough at the property boundaries to disturb persons of reasonable sensitivity.

**Sec. 5-25 Predators, rodents, insects, and parasites.**

The property owner and/or fowl owner shall take all necessary action to reduce the attraction of predators, rodents and insects that could result from the presence of fowl and their enclosures. If unhealthy conditions to human habitation result from keeping of fowl, they may be removed by the Town through the Animal Control Officer, or any other designee, and the cost of the same shall be borne by the property owner and/or fowl owner.

**Sec. 5-26 Feed and water.**

Fowl must be provided with access to feed and clean water; such feed and water shall be unavailable to rodents, wild birds and predators.

**Sec. 5-27 Waste storage and removal.**

No more than one, twenty gallon container of manure shall be stored on any one property housing fowl. Manure composting shall be done in a suitable location so as not to create a nuisance to abutting property owners. In addition, the fowl house, fowl pen and surrounding area, must be kept free from trash and accumulated droppings. Uneaten feed shall be removed in a timely manner.

**Sec. 5-28 Revocation of permit.**

A permit to keep fowl may be revoked where there is a risk to public health or safety or for any violation of or failure to comply with any of the provisions of this article.

**Sec. 5-29 Removal of fowl.**

If an order to remove fowl is issued by the Animal Control Officer, the Health Officer or the Code Enforcement Officer, the fowl must be removed within thirty (30) days of the date that the order is issued. This includes all structures related to all of the fowl.

This provision shall not apply to 2 or more contiguous lots, at least one of which is non-conforming, owned by the same person or persons on ~~\*July 1, 1993~~ July 1, 1993, and recorded in the registry of deeds if the lot is served by a public sewer or can accommodate a subsurface sewage disposal system in conformance with the State of Maine Subsurface Wastewater Disposal Rules; and

~~**\*Per MDEP Order #12-10 (Voters will vote on this change at the 2011 Annual Town Meeting)**~~

*Explanation: Making this change will lift the imposed DEP Order #12-10. The language we approved last year was specified as "the effective date of this Article". Since the previous Article 4 was repealed the "effective date" would have been the date in May 2010 that the DEP approved the newly adopted article, hence the DEP Order. July 1, 1993 was the date specified in the repealed Article 4.*

**Article 69.** Shall an ordinance entitled "Chapter 14 - Land Use, Article 8 - Administration - Section 8.1 Administration of Permits" be amended?

A. Building Permits.

No building, structure or part thereof shall be constructed, altered, enlarged or moved unless a building permit for such action has been issued by the code enforcement officer or is otherwise exempted under other provisions of this ordinance.

A site plan showing the dimensions of the lot and of all buildings, yards and parking spaces, existing or proposed, shall accompany each application to the Code Enforcement officer for a building permit or certificate of occupancy. Site plans of all off-street loading and off-street parking, whether or not such parking is located on the same lot with the building for which it is required or which it is to serve, shall be provided.

B. Certificate of occupancy required.

~~No building or part thereof shall be constructed, altered, enlarged or moved unless a permit for such action has been issued by the code enforcement officer. Applications for building permits and certificates of occupancy required by the building code shall also serve as applications for permits required by this article. After a building, structure or part thereof has been completed, altered, enlarged or moved, as authorized by a building permit, a certificate of occupancy shall be obtained for the proposed use before the same may be occupied or used. A certificate of occupancy shall also be required for any of the following:~~

*Note: The list specified here is unchanged.*

*Explanation: The existing language in sub-sections 8.1.A and 8.1.B is not clear. For example, the definition of when a building permit is required is currently given in sub-section B, the certificate of occupancy section, and sub-section A only specifies what is required for a building permit application.*

g. Where site plan approval is required by Article 10 (Site Plan Review), a preliminary or final site plan copy of a site plan application that has been determined by the Planning Board to be complete as defined by Article 10 (Site Plan Review).

This conflicts with the requirements of Article 10. 3 Part D-12 which states: "Where the approval of the Zoning Board of Appeals is required, such approval must be*
