Good Afternoon Planners,

I'm Kelly Rehberg, an AmeriCorps Fellow working with Rick Harbison and GPCOG. We contacted you a few weeks ago about setting up an email list of the region's planners and hosting informational "planner's roundtable" meetings (first email below for those new to the list). We would like to start holding these meetings and are sending a short survey to solicit feedback on topics.

Survey available here: https://www.surveymonkey.com/r/GPCOG_Planner_Survey

The meetings will be a chance to discuss current issues, get updates from us about regionwide projects, and connect. We are aiming to hold the first meeting either in late January or early February so please complete the survey by January 15th.

If you would like to be taken off this list or do not see someone included who should be please let us know. Thank you and please let us know if you have any questions or concerns.

Thanks!
Kelly

Subject: Planner's contact list and meeting

Hello Everyone,

Rick Harbison here at GPCOG. You are receiving this email because we are pulling together an email list of planners (or planning board chairs for towns that do not have planners) in the GPCOG/PACTS region. We would like to push announcements out to this group and host informal "planner's roundtable" meetings a few times per year (currently thinking quarterly) to discuss issues and opportunities specific to the planning community. (We provide similar forums for the region's public works directors and town managers). If you would like to be taken off this list or do not see someone included who should be -- I'm fairly certain a few people are missing here -- please let us know. We are hoping to convene our first meeting in mid-to-late January. We will be sending out another email before the holidays to solicit ideas for topics and potential formats for that meeting.

In the meantime, I wanted to alert you to a webinar we are helping to organize on how to stabilize shorelines using green design techniques (see attached flier). The webinar is next Thursday, December 17th from 3:00 - 4:30 p.m. Hope to see you there!

Thank you and please let us know if you have any questions or concerns.

Rick
