

## weekly update

**From** Amy Tierney <clerk@longislandmaine.org>  
**To** Town Selectmen <selectmen@longislandmaine.org>, Town Administrator <townadmin@longislandmaine.org>, Barbara Johnson <taxcollector@longislandmaine.org>, Lisa Kimball <treasurer@longislandmaine.org>  
**Cc** Bradley B brown <planningboard@townoflongisland.us>, PB Secretary <planningboard.secretary@townoflongisland.us>  
**Date** 2021-06-10 16:29

### CEO

1. Towanda has submitted a building permit to replace an 8x8 shed with a 10x12
2. Jim had a question regarding specifics of an internal plumbing permit
3. We've had a property owner question if they could sell a portion of their lot to a neighbor but lots are currently non conforming
4. We received a new building permit from Dan Cushing for Tim Honey, this one with the addition staying inside the setbacks
5. Jim had me reach out to MMA Legal with some questions regarding paper streets and access, we'll discuss when he comes next week - the more answers we get the more questions too. We've been working through 2 questions - one deals with the access issues in Ocean View and the other is the vacate process. I'll send a more in depth explanation
6. Jim talked with Ed last week and the building permit for Tom Murray's floating platform / deck was revoked.

### Clerk

1. public hearing for business license renewal is scheduled for June 17th at 5:45
2. last week I sent off the floodplain and shoreland zoning changes to the respective departments and Janet Parker from Maine Floodplain Management Program replied with "Everything looks good - except for my mistake. There is a minor typographical error in the model ordinance sent to you. At the end of Section 5.A. the citation references "Section 5 (Development Standards)" while the correct citation should be "Section 6 (Development Standards)". Steve Hart is going to check but this may need to go back to Town Meeting for approval (next year)
3. Rippleffect can't do tomorrow anymore, is there a day next week?

### Wellness-

1. Telehealth equipment was delivered and Dennis McC and I had a training session . We'll continue to train with the equipment and have an open house to showcase
2. Vet Clinic is scheduled for Sunday
