

July 3, 2024

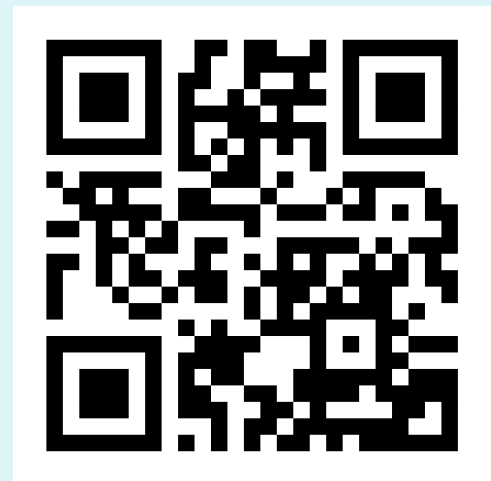

To receive a **FREE** water test, submit your **Well and Septic survey** by **July 7th**.

Even if you don't have all the information to complete the survey you are still eligible for a free water test! All you need to do is submit a survey response to be eligible. Please note "I don't know" for any information you don't know and also note your interest in a free water test. The GWQC has the funds to test up to 400 wells, so submit your survey today!

You can access the link on the GWQC page on the Town website, the link/ QR code below, or you can pick up a paper copy at Town Hall, complete, and return to Town Hall.

Once you submit your survey, a GWQC sampling volunteer will be in touch over the next couple months to schedule your sample collection.
